Introduction

To ensure a drug-free campus and workplace and in compliance to the Drug-Free Schools and Communities Act (DFSCA) and Part 86 of General Administrative Regulations, the Drug and Alcohol Abuse Education and Prevention Program (DAAPP) University of East-West Medicine (UEWM) is promulgated especially for its students, faculty, and staff. It shall remain the policy of this institution for everyone to embrace the responsibility of protecting our environment and exemplify integrity, values, and professionalism.

The unlawful manufacture, distribution, dispensation, possession or use of alcohol; illegal drugs; or controlled substances by any student, faculty, or staff shall in no case be condoned in any manner as it adversely affects the institutional mission and educational objectives of UEWM.

The UEWM DAAPP contains the following policies and procedures:

1. Annual Distribution of the DAAPP to students, faculty, and staff.
2. Standards of Conduct that clearly prohibit the unlawful use of alcohol, illegal drugs or controlled substances by students, faculty, and staff on its premises or during any school activity.
3. Description of Applicable Legal Sanctions under the law for the unlawful possession or distribution of illegal drugs or alcohol.
4. Description of Health Risks associated with the use and/or abuse of illegal drugs or the abuse of alcohol.
5. Imposition of Disciplinary Sanctions on students, faculty, and staff for violations of this policy.

Everyone is expected to adhere to this policy during their enrollment or employment in University of East-West Medicine.

The University of East-West Medicine Drug and Alcohol Abuse Prevention Program will be reviewed biennially to determine its effectiveness. It will be updated, if needed, to meet the needs of the community.

Distribution of the DAAPP

1. Employee Notification. Notification of the information contained in the DAAPP will be distributed to all current faculty and staff via email before October 1st of each year.
2. Student Notification. Notification of the information contained in the DAAPP will be distributed to all currently enrolled students via email before October 1st of each year. (Notification of 2023 has been delayed due to COVID-19 pandemic and staff shortage.)
3. The University of East-West Medicine DAAPP will be posted at school's website with the following URL: <http://www.uewm.edu/students/consumer>

Drug and Alcohol Abuse Policy

It is the objective of University of East-West Medicine to establish and maintain a drug-free workplace and campus. Students, faculty, and staff are forbidden to unlawfully manufacture, distribute, dispense, possess, or use any controlled substance within campus premises. Violations of this policy are grounds for disciplinary action.

1. Any student failing to comply with the policy constitutes a violation of the UEWM Code of Conduct and offenders will be subject to sanctions, consistent with local, State, and Federal law, up to and including suspension or dismissal.
2. Any employee in violation of the policy will be subject to disciplinary action up to and including termination of employment. Employees are required to report any drug- or alcohol- related convictions occurring in the workplace to the HR no later than five (5) days after such conviction. Such conviction may also result in termination of employment.
3. UEWM reserves the right to pass on information regarding possession, use and/or distribution of illegal drugs and drug paraphernalia by any member of its community to the local, state, and federal authorities as required.
4. Federal legislation mandates that individuals cannot receive federal aid if they have been convicted of the possession or sale of illegal drugs for an offense that occurred while they were receiving federal student aid.

For Students

All newly enrolled students shall be informed of the availability of the UEWM DAAPP during new student orientation. Hardcopies of the program shall be provided by the Admission Office upon request of the student and via email.

Code of Conduct

The disciplinary standards outlined herein include rules and enforcement measures. These are the basic guidelines for conduct to be observed within campus premises, at any school- sponsored activity and behavior outside the community.

1. At any time, UEWM reserves the right to exclude students whose conduct is deemed undesirable or contrary to the University's best interests.
2. These standards are subject to amendment at any time with notices being posted on the campus bulletin boards. All amendments of the Standards must be approved by the Academic Dean in conjunction with the Board of Trustees.
3. The disciplinary standards described herein afford procedural fairness to the accused student and flexibility for the administration to exercise sanctions based on the individual circumstances of each case. Behavior resulting in disciplinary action may involve, but is not limited to, one or a combination of those listed below:

Possession of Alcoholic Beverages on campus or at any school activities at any time or, for all

- a. Intoxication of the Student
- b. Threatening another student, faculty, staff, or administrator
- c. Falsification of school documents, records, or identification
- d. Removal of Library Materials without permission
- e. Usage of Abusive Language to another student, faculty, staff, or administrator
- f. Theft or damage of school property or fellow student's property
- g. Illegal intoxication with Controlled Substances, including drug and/or alcohol abuse
- h. Physical Assault for any reason except clear self-defense
- i. Vandalism of School Property
- j. Conviction of a Crime beyond normal traffic violations
- k. Aiding and/or Abetting in any of the above situations
- l. Possession of Firearms or Illegal Weapons as defined by state and federal guidelines
- m. Violation of any state policies or regulations governing student's relationship with the University

4. Students accused of improper conduct shall be given adequate notice of the charges and an opportunity to present their case to an impartial Appeals Committee.
5. Written notice of specific charge(s) made against a student shall be given at least fifteen (15) days before the student is to appear before the Committee.
6. While disciplinary action against a student is pending, the student's status does not change unless it is found that the student poses a significant threat to the community.
7. Hearings shall remain private. The accused student is accorded the opportunity to rebut all charges. The University establishes the charges by a preponderance of the evidence.
8. The student has the right to appeal the disciplinary actions to the Academic Dean, but on the grounds that fair procedure was not followed by the Committee or that the evidence in the record does not justify the decision or the sanction.
9. A record will be kept of the disciplinary action taken, and the basis for this decision. The disciplinary action taken may be reflected on the student's permanent record, as part of the disciplinary punishment.

Disciplinary Sanctions

1. Disciplinary sanction invoked by the Committee may involve, but is not limited to, one or a combination of the alternatives listed as follows:
 - a. **Dismissal:** Separation of the student from UEWM on a permanent basis.
 - b. **Suspension:** Separation of the student from UEWM for a specific length of time.
 - c. **Probation:** Status of the student indicating that the relationship with the University is tenuous and that the student's record will be reviewed periodically to determine suitability to remain enrolled. Specific limitations and restrictions on the student's privileges may accompany probation.
2. University policy stipulates that a student dismissed by disciplinary action, from either the University or a course, may still receive a refund of tuition or other fees subject to the tuition refund policy of the University.
3. Students dismissed for disciplinary reasons must exclude themselves from classes, activities, facilities, and buildings. Any exception must be approved by the President. Students who have not fulfilled their financial obligations to UEWM

are in violation of the Enrollment Agreement. Said students may be denied the right to graduate, take examinations, receive degrees, or obtain/request transcripts of their grades.

For Faculty and Staff

1. All newly hired employees of UEWM shall be provided a copy of the DAAPP during faculty and/or employee orientation. The HR shall explain the policies and procedures in detail and answer any questions.
2. All faculty and staff shall be provided an electronic copy of the UEWM DAAPP annually via email.

Disciplinary Sanctions

1. All faculty and staff are responsible for compliance with the Drug and Alcohol Abuse Policy of UEWM as a condition of continued employment.
2. Violations will be subject to discipline up to and including immediate termination of employment.

Drug and Alcohol Testing for Faculty and Staff

Reasonable Cause

Any faculty or staff who is reasonably suspected of using alcohol or illegal drugs or of abusing controlled substances in the workplace or of performing official duties while under the influence of alcohol, illegal drugs, or abused controlled substances will be required to undergo an alcohol and/or drug test. "Reasonable cause" exists when an employee exhibits behavior that suggest impairment from drug or alcohol use or when job performance or safety is affected. An employee may be requested to take a drug or alcohol test if the school administrators have a reasonable belief that the employee's faculties are impaired while at work due to drug or alcohol use.

Follow-up

Any faculty or staff who has tested positive for drug and/or alcohol, or otherwise violated this policy, are subject to discipline, up to and including termination. Depending on the circumstances and the employee's work history/record, UEWM may offer an employee who violates the policy or tests positive the opportunity to return to work on a last-change basis pursuant to mutually agreeable terms, which could include follow-up drug testing at times and frequencies determined by UEWM for a minimum of one year but not more than two years as well as a waiver of the

right to contest any termination resulting from a subsequent positive test. If the employee does not comply with the agreed upon terms and conditions, the employee will be subject to immediate termination from employment.

Consequences

Employees who refuse to cooperate in required tests, who use, possess, buy, sell, manufacture, or dispense any illegal drug in violation of this policy, or who tests positive for alcohol or illegal drug use under this policy will be disciplined, up to and including termination. Employees will be paid for time spent in alcohol or drug testing and then subject to unpaid suspension pending the results of the drug or alcohol test. After the results of the test are received, a date and time will be scheduled to discuss the results of the test; this meeting will include the employee's supervisor, a school administrator, and the school president or designee. Should the results prove to be negative the employee will receive back pay for the times/days of suspension.

Confidentiality

Information and records relating to positive test results, drug and alcohol dependencies, and legitimate medical explanations provided to the HR will be kept confidential to the extent required by law and maintained in secure files separate from normal personnel files. Such records and information may be disclosed among managers and supervisors on a need-to know basis and may also be disclosed when relevant to a grievance, charge, claim or other legal proceeding initiated by or on behalf of an employee.

Inspections

UEWM reserves the right to inspect all portions of its premises for drugs, alcohol, or other contraband. All employees and visitors may be asked to cooperate in inspections of their persons, work areas and property that might conceal a drug, alcohol, or other contraband. Employees who possess such contraband or refuse to cooperate in such inspections are subject to disciplinary action, up to and including termination.

Drug and Alcohol Health Risks

	Signs & Symptoms	Health Effects
Alcohol Alcohol is a depressant that may affect judgment and decision making abilities, slow down the central nervous system and brain functions, and reduce coordination and reflex actions.	Dulled mental processes Lack of coordination Slowed reaction time Poor judgment Reduced inhibitions	Liver cancer, fatty liver, hepatitis, cirrhosis Increased risk of cancer Kidney disease Ulcers Increased acid in the stomach High blood pressure and strokes Heart muscle disease or heart failure
Marijuana Marijuana is a derivative of the cannabis sativa plant and is illegally used for its intoxicating effects and dreamy state of relaxation and euphoria.	Bloodshot eyes Dry mouth and throat Increased appetite Impaired or reduced short-term memory and comprehension Altered sense of time Alter ability to perform tasks requiring concentration and coordination Emphysema-like symptoms	Respiratory track and sinus infections Lowered immune system response Damage to lungs and pulmonary system
Inhalants Inhalants are mood altering substances that are voluntarily inhaled. Most substances used are commercial and household products, such as solvents and aerosols, which are easily obtained and are not harmful, if used for the purpose intended and as directed.	Nausea Sneezing Coughing Nosebleeds Fatigue Poor Coordination Loss of Appetite	Hepatitis Brain damage Debilitating effects on the central nervous system Weight loss Fatigue and Muscle fatigue Electrolyte imbalance Permanent damage to nervous system

Disorientation, violent behavior,
unconsciousness
or death

Decrease heart and respiratory rates

	Signs & Symptoms	Health Effects
Cocaine Cocaine is the most potent stimulant of organic origin and the most widely used of the stimulants. Crack is a form of cocaine.	Dilated pupils Insomnia Loss of appetite Tactile hallucinations Paranoia Seizures Anxiety, agitation Wide mood swings Difficulty in concentration	Elevated blood pressure Elevated heart rate Elevated respiratory rate Elevated body temperature Death by cardiac arrest or respiratory failure
Other Stimulants Stimulants are drugs that stimulate the central nervous system and excite bodily activity. Examples are amphetamines, khat or methamphetamine.	Mood changes Impaired concentration Impaired mental functioning Swings between apathy and alertness Restless, anxious, and moody behavior Poor coordination Sleeplessness and anxiety	Increased heart and respiratory rates Elevated blood pressure Sweating, headaches, dizziness Blurred vision Rapid or irregular heartbeat Tremors Physical collapse
Depressants Depressants are drugs that depress the central nervous system, resulting in sedation and a decrease in bodily activity. Examples are barbiturates, GHB, rohypnol® or benzodiazepines.	Slurred Speech Staggered walk Altered perception Mental clouding and drowsiness Respiratory depression	Physical and psychological dependence Tolerance to the drug, leading the user to increase the quantity consumed Coma and death
Hallucinogens Hallucinogens are drugs that distort the senses and often produce hallucinations—experiences that depart from reality. Examples are Ecstasy/MDMA, K2/Spice, Ketamine, LSD,	Impaired concentration Confusion and agitation Muscle rigidity Profuse sweating A sense of distance and estrangement	Persistent memory problems Speech difficulties Mood disorders—depression, anxiety and violent behavior

Peyote & Mescaline, Psilocybin, Marijuana/Cannabis, Steroids or Inhalants.	Muscular coordination worsens Blocked and incoherent speech Dilated pupils Elevated body temperature Loss of appetite Sleeplessness	Paranoid and violent behavior Hallucinations Increased heart rate and blood pressure Convulsions and coma Heart and lung failure
--	--	--

	Signs & Symptoms	Health Effects
Narcotics Narcotic analgesics are the most effective compounds used for pain relief. Examples are Opium, Opiates (morphine, codeine, percodan, heroin and dilaudid) and Opioids (Vicodin, Darvon, demerol and methadone).	Feeling of euphoria Drowsiness Nausea and vomiting Constricted pupils Watery eyes and itching Low and shallow breathing Clammy skin Impaired respiration Convulsions	Easy addiction Coma Possible death
Bath Salts or Designer Drugs Bath Salts are a synthetic stimulant made up of chemicals that stimulate the central nervous system. These substances are usually marketed with the warning "not intended for human consumption."	Agitation, irritability Insomnia, depression and dizziness Paranoia, delusions Nausea and vomiting Sweating Suicidal thoughts Panic attacks Impaired perception of reality Reduced motor control Decreased ability to think clearly	Nosebleeds Chest pains Rapid heart rate Heart attack Seizures Stroke

FEDERAL TRAFFICKING PENALTIES

DRUG/SCHEDULE	QUANTITY	PENALTIES	QUANTITY	PENALTIES
Cocaine (Schedule II)	500–4999 grams mixture	First Offense: Not less than 5 yrs, and not more than 40 yrs. If death or serious injury, not less than 20 or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual. Second Offense: Not less than 10 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual.	5 kgs or more mixture	First Offense: Not less than 10 yrs, and not more than life. If death or serious injury, not less than 20 or more than life. Fine of not more than \$10 million if an individual, \$50 million if not an individual. Second Offense: Not less than 20 yrs, and not more than life. If death or serious injury, life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual. 2 or More Prior Offenses: Life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual.
Cocaine Base (Schedule II)	28–279 grams mixture		280 grams or more mixture	
Fentanyl (Schedule II)	40–399 grams mixture		400 grams or more mixture	
Fentanyl Ana-logue (Schedule I)	10–99 grams mixture		100 grams or more mixture	
Heroin (Schedule I)	100–999 grams mixture		1 kg or more mixture	
LSD (Schedule I)	1–9 grams mixture		10 grams or more mixture	
Methamphetamine (Schedule II)	5–49 grams pure or 50–499 grams mixture		50 grams or more pure or 500 grams or more mixture	
PCP (Schedule II)	10–99 grams pure or 100–999 grams mixture		100 gm or more pure or 1 kg or more mixture	

PENALTIES				
Other Schedule I & II drugs (and any drug product containing Gamma Hydroxybutyric Acid)	Any amount 1 gram	First Offense: Not more than 20 yrs. If death or serious injury, not less than 20 yrs, or more than life. Fine \$1 million if an individual, \$5 million if not an individual. Second Offense: Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if not an individual.		
Flunitrazepam (Schedule IV)				
Other Schedule III drugs	Any amount	First Offense: Not more than 10 years. If death or serious injury, not more than 15 yrs. Fine not more than \$500,000 if an individual, \$2.5 million if not an individual. Second Offense: Not more than 20 yrs. If death or serious injury, not more than 30 yrs. Fine not more than \$1 million if an individual, \$5 million if not an individual.		
All other Schedule IV drugs	Any amount	First Offense: Not more than 5 yrs. Fine not more than \$250,000 if an individual, \$1 million if not an individual. Second Offense: Not more than 10 yrs. Fine not more than \$500,000 if an individual, \$2 million if other than an individual.		
Flunitrazepam (Schedule IV)	Other than 1 gram or more			
All Schedule V drugs	Any amount	First Offense: Not more than 1 yr. Fine not more than \$100,000 if an individual, \$250,000 if not an individual. Second Offense: Not more than 4 yrs. Fine not more than \$200,000 if		

an individual,
\$500,000 if not an individual.

FEDERAL TRAFFICKING PENALTIES – MARIJUANA

DRUG	QUANTITY	1st OFFENSE	2nd OFFENSE *
Marijuana (Schedule I)	1,000 kg or more marijuana mixture; or 1,000 or more marijuana plants	Not less than 10 yrs. or more than life. If death or serious bodily injury, not less than 20 yrs., or more than life. Fine not more than \$10 million if an individual, \$50 million if other than an individual.	Not less than 20 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75 million if other than an individual.
Marijuana (Schedule I)	100 kg to 999 kg marijuana mixture; or 100 to 999 marijuana plants	Not less than 5 yrs. or more than 40 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine not more than \$5 million if an individual, \$25 million if other than an individual.	Not less than 10 yrs. or more than life. If death or serious bodily injury, life imprisonment. Fine not more than \$20 million if an individual, \$75million if other than an individual.
Marijuana (Schedule I)	More than 10 kgs hashish; 50 to 99 kg marijuana mixture More than 1 kg of hashish oil; 50 to 99 marijuana plants	Not more than 20 yrs. If death or serious bodily injury, not less than 20 yrs. or more than life. Fine \$1 million if an individual, \$5 million if other than an individual.	Not more than 30 yrs. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if other than an individual.
Marijuana (Schedule I)	Less than 50 kilograms marijuana (but does not include 50 or more marijuana plants regardless of weight) 1 to 49 marijuana plants;	Not more than 5 yrs. Fine not more than \$250,000, \$1 million if other than an individual.	Not more than 10 yrs. Fine \$500,000 if an individual, \$2 million if other than individual.
Hashish (Schedule I)	10 kg or less		
Hashish Oil (Schedule I)	1 kg or less		

*The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is a mandatory term of life imprisonment without release and a fine up to \$20 million if an individual and \$75 million if other than an individual.

*You can also find the full drug and abuse file under DEA website:
https://www.dea.gov/sites/default/files/drug_of_abuse.pdf

Biennial Review

A biennial review will be conducted twice a year by UEWM in compliance to the Drug-Free Schools and Communities Act (DFSCA) and Part 86 of General Administrative Regulations. The purpose of the review is to:

1. Determine the effectiveness and implement changes to the DAAPP, if needed; and,
2. Ensure that the disciplinary sanctions described in the program are consistently enforced.

The Management Committee shall meet biennially to discuss documented instances where the Drug and Alcohol Abuse Policy has been violated. The Committee will submit its findings to the President and present improvements and/or changes to the program. A report of the biennial review will be available on the school website.

2022-2023 DAAPP BIENNIAL REVIEW

DAAPP Biennial Review In accordance with the Drug-Free Schools and Communities Act and Part 86 of the U.S. Code of Federal Regulations, this report provides an analysis of the required biennial review of University of East-West Medicine (UEWM)'s Drug and Alcohol Abuse Prevention Program (DAAPP). The Biennial Review team of the Management Council is responsible for reviewing the requirements and goals of the Drug-Free Schools and Campuses Regulations and collects campus information to evaluate the program and produce the Biennial Review, including recommendations for future action. DAAPP report should be distributed to all students, faculty, and staff by email Oct 1st, 2023. Because Dalong Zhang as Facilities Manager didn't complete this task before Oct 1st, 2023, the GR Director Hui-Ping Lo and new Facilities Manager Po-I Kuo did a makeup survey and report in November 2023.

The Biennial Review Team is inclusive, but not limited to, the followings:

- Dr. Ying Qiu Wang, President
- Hui-Ping Lo, Vice President for Administrative Affairs
- Bei Liu, Vice President for Academics and Research
- James (Jing) Chen, Director of Admissions & Marketing
- Weiwen Sun, Clinic Business Director
- Joyce (Jing) Wang, Finance Manager
- Po-I Kuo, Campus Safety Officer & Facilities Manager & Registration Manager

The Biennial Review team has the following three objectives in preparing the report:

1. Determine the effectiveness and implement any needed changes to the DAAPP.
2. Investigate and implement new processes to improve campus awareness.
3. Ensure the campus consistently enforces the disciplinary sanctions for violating standards of conduct.

Data sources utilized for this review included the crime statistics listed in the 2020-2021 Annual Security Reports (ASR), incident records collected from the Student Services Departments/Academics Office, and communication with local police departments.

University of East-West Medicine is committed to an environment which supports the academic success and health of our students. Alcohol use and abuse or the use of illicit drugs by our students and employees may be harmful to the user and harmful to the educational environment. In keeping with the University's Mission Statement and in compliance with Federal and State regulations, University of East-West Medicine is committed to an environment that must be conducive to learning, to maintaining a safe, healthy, lawful, and productive working and educational environment for its students and employees.

UEWM complies with the regulations.

- a. There is a DAAPP in place directed towards the prevention of illicit drugs and the misuse of alcohol and drugs.
- b. The DAAPP describes the legal sanctions under federal, state, and local law for unlawful possession, use, or distribution of illicit drugs and alcohol.
- c. The DAAPP gives a clear statement of sanctions that UEWM will impose on students and employees for violations of the standards of conduct.
- d. The DAAPP contains a description of the health risks associated with the use of illicit drugs and the abuse of alcohol.
- e. UEWM has a plan to distribute its DAAPP to all employees and students via e-mail and the school website on an annual basis.
- f. The DAAPP has guidelines for preparing the Biennial Review and determining the program's effectiveness, consistency of policy enforcement, and measures to identify necessary program changes.
- g. UEWM will need resources available to those seeking help with drug or alcohol problems. Information regarding professional counselors available near schools will be kept at the clinic and the administration office.
- h. During this period the Management Council recommended that Student Services Coordinates get more actively involved in monitoring incidents related to drugs and alcohol and prepare the campus security reports in time. Ideas such as campus wide weekly observance, increased campus awareness flyers will be posted, reaffirmation statements will be provided to employees.
- i. During this period the Management Council recommended that the Campus Safety Officer will prepare for employee reports related to drugs and alcohol.
- j. Increased efforts will be made to involve staff and students in collective education on the resources available to those in need or at risk for drug or alcohol dependency.
- k. UEWM will seek methods of partnership with local services and mental health resources to serve the campus community with prevention methods.

Effectiveness of the DAAPP

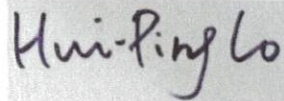

1. After reviewing the DAAPP, the review team noted that there were no student incidents involving alcohol.
2. After reviewing the DAAPP, the review team noted that there were no student incidents involving drugs.
3. After reviewing the DAAPP, the review team noted that there were no employee incidents involving drugs and alcohol.
4. The DAPP review team makes recommendations to add resources available to those seeking help with drug or alcohol problems.

The Biennial Review is approved by President Dr. Ying Qiu Wang for University of East-West Medicine.

Biennial Review Survey

UEWM Biennial Review for DAAPP

October 28, 2023

The UEWM faculty, students, and staff were provided with the DAAPP report and survey as attached.

The full responses can be found with the link.

https://docs.google.com/forms/d/1hudPzWaeMGZZ/1fFSrZcGRY3RE/yFAeiXI_s_VFWvdc/edit?ts=653990b8#responses

The surveys addressed two key subjects: the DAAPP and the Clery Programs. Our objective was to minimize the number of surveys and questions to maximize the response rate. We received feedback from 8 students, 3 staff members, 1 faculty member, and 1 member of the management team. The responses provided valuable insights.

Over the past two years, we have made significant strides, and all responses indicate that individuals feel our campus facilities are safe. We remain committed to diligently working towards maintaining a safe and protected campus environment for all. We will continue to distribute information about the DAAPP program every semester and collaborate with the facility owner to enhance campus security.

Our efforts have also led to improvements in emergency communication. We've established chat groups for more efficient communication while maintaining school emails as the official channel for conveying instructions regarding daily duties for students and faculty.

Furthermore, it would be highly beneficial to arrange for a presentation by law enforcement on recognizing signs of intoxication. This is essential for our faculty and clinic, as we want

to ensure that our students do not perform needling or cupping procedures on patients who may be under the influence of alcohol or drugs.

This report is shared with the faculty and more discussions will happen at the next faculty meeting.

The survey analysis is included below:

What is your role on campus? 請問您在學校的身分是?

13 responses

Do you feel safe at UEWM regarding drug and alcohol abuse?

關於學校在管制酒精和藥物方面，請問您感到安心嗎？

13 responses

Most stakeholders felt the school is quite safe regarding drug and alcohol abuse.

How useful is the information UEWM provides about School Safety, Drug, Tobacco and Alcohol Abuse? 對於學校提供的校園安全以及藥物,菸酒的消息和報告, 請問您覺得有用嗎?

13 responses

We have made great progress in the past two years so that all stakeholders think the information and report we published are useful.

How Safe are the Facilities at UEWM? 您對於學校的設施感到安全嗎?

13 responses

Most responses show positive on the facility's safety. We have surveillance devices in our entrance and make sure the doors are locked when we leave the area to try to compensate.

How well does UEWM communicate Emergency Information? 學校對於緊急訊息的溝通做得好嗎?
13 responses

All responses show we are doing well about UEWM emergency communication. However, as we don't have a full-time front desk and security team it would still lead to non-response. Currently we have the person on duty program so someone can respond if something emergent happened, and we would email the emergency to all the stakeholders. This year we have done more to post emergency exits, post emergency exit signs with the routes to be taken and assembly areas.

What do you think about illegal drugs and alcohol at UEWM ?
您對於學校的非法藥物和酒精使用的想法是甚麼呢?

13 responses

Overall, all stakeholders are aware of our drug and alcohol-free policy and behave well thus we never had an abuse issue before.

The comments and suggestions are attached below:

Feel free to leave your comment and let us know how to improve. 歡迎您提供建議或是改善方法給我們.

1 response

While I answered there are no illegal drugs or alcohol problem, I want to edit my answer to that I am unaware of any issue at this time. I have also not received any notice of any issue previously from UEWM.
